Architecture	Critical	Erdic Poor House (1-2 variants)			Will be found in Roda's port, big chunk of the city and in outside farms and villages	Khacari
Architecture	Critical	Erdic Poor Interior				Khacari
Architecture	Low	Erdic Palace Set				Khacari
Architecture	Low	Roda Lighthouse				Khacari
Architecture	Low	Erdic Temple Set			I think Roda should get dedicated temple that won't be used for Kaer temples	Khacari
Architecture	Low	University of Illusion				Khacari
Architecture	Low	Sain Ruins Set				Khacari
Architecture	Low	Windows, Doors and Balconies				Khacari
Architecture	Unknown	Erdic Common House			Mostly made to ensure there are a bit more variety in houses between poor/rural and more urban one - can be removed if P set becomes common	Khacari
Landscape	Medium	Roda Roads			Roda has quite colourful roads, built with many varied rocks. They make a rainbow-like effect, spanning across all levels of the city.	Khacari
Landscape	Low	Erdic Signs / Signposts				Khacari
Landscape	Low	Service Provider Signs				Khacari
Landscape	Low	Faction Banners and Flags				Khacari
Flora	Low	Khacari Flora				Khacari
Furniture	Critical	Erdic Poor Furniture				Khacari
Furniture	Low	Planters			Plenty of planters, with some variety - big/small, common/rich, interior/exterior	Khacari
Clutter	Critical	Erdic Poor Clutter				Khacari
Clutter	Critical	Erdic Stoneware			Wares used for P and M status. It looks slightly fancy, but nothing too decorative, just simple carvings. Prioritised because of versatility	Khacari
Clutter	Critical	Erdic Copperware	[1]		Wares used for P and M status. It should have some basic decorations. Prioritised because of versatility - if other set is made, set to high	Khacari
Clutter	High priority	Erdic Woodware			Wares used for P status. Doesn't look fancy, it is the lowest level of clutter to find	Khacari
Clutter	High priority	Erdic Clayware			Wares used for P status. Should be most basic	Khacari
Clutter	Medium	Erdic Celadonware			Wares used for M status. Should have a bit more decorations than other M sets, as it should be the one not shared with lower class	Khacari
Clutter	Low	Erdic Carved Wood Tableware			Wares used for U status. Should have patterns and be made out of darker green, kinda following PTR's Imperial carved wood set	Khacari
Clutter	Low	Erdic Porcelain Tableware			Wares used for U status. Should be fairly decorative, probably trying to go with non-white colour, but instead mix several? Cream green, blue, purple?	Khacari
Clutter	Low	Erdic Glassware			Wares used for U and R status. Should have greenish, blueish or purpleish hues, or have all variants	Khacari
Clutter	Low	Erdic Jadeaware			Wares used for R status. Should be green-yellow, similarly to Tammi's jadeaware colour (not necessarily shapes)	Khacari
Clutter	Low	Erdic Blueware			Wares used for R status. Should be made out of lapis-like material	Khacari
Clutter	Low	Thinned Gold Tableware			Wares used for permission status. Should be made out of gold, but it should be very thin and decoratively ornated - a highly refined skill of erdic master goldworkers	Khacari
Clutter	Low	Other Erdic Wares			Other wares listed here - not listed in detail because they are not very urgent	Khacari
Clutter	Medium	Erdic Tapestries			~10 regular tapestries for erdic culture, with maybe additional 2-5 rich ones (for palace) and 2-4 temple ones (for temple on Khacari and Kaer)	Khacari
Clutter	Low	Erdic Kettle	[1]		Some subtly decorated, metal kettle - can also have some material variants if needed (see: Ashfall Tea Merchants kettles)	Khacari
Clutter	Low	Khacari Paintings			I'd assume 10-15 paintings. I'd prefer them to be made manually, with specific regions outside of Khacari (close and far) - to give lore contexts and be narration tools. Obviously I don't want them to be AI, but also I don't want them to be random "landscape that can be anywhere" because this makes them a bit meh. Considering how often I was looking at paintings on M&B and alpha Cyrodill, I think there's bigger potential for this asset	Khacari
Clutter	Low	Erdic Containers			Chests, crates, urns, pots and others	Khacari
Clutter	Low	Erdic Screens	[1]		Screens used as part of interior furniture. Ideally having P/M/R split for variety	Khacari
Clutter	Low	Pillows			White and also decorated pillows for variety	Khacari
Clutter	Low	Hanging Leaflets	Toma400		Leaflets hanged on the string by erdic families - this specific claim should have unreadable script, as it would be a generic clutter. In the future, there's a possibility of making interior-specific leaflets, but they would require separate claims and strict coordination with area	Khacari
Weapon	Low	Erdic Steel Sword			Very slightly curved sword with ornate decals on steel near the handle	Khacari
Weapon	Low	Roda Guard Halabard			Quite ornate, with red and yellow decals. Used by guards, especially in a palace and temple	Khacari
Cloth	High priority	Erdic Common/Poor Clothes				Khacari
Cloth	Low	Erdic Other Clothes			Variety of clothes, robes and others - usually in colours such as green, purple, blue and others	Khacari
Cloth	Low	Erdic Jewelry	[1]		Rings and amulets, maybe some less-Morrowind types like earrings or necklaces	Khacari
Armour	Low	Khacari Guard Armour				Khacari
Creature	Medium	Akhad			Akhad creature, one of most important cultural ones for the area	Khacari
Creature	Low	[Unnamed Hostile Creature]			Hostile creature that hunts Akhad and is fairly dangerous - moves in small packs, like wolves	Khacari
Creature	Low	Lizard			Ambient lizard creature. Should be seen on sides of rock meshes and then move quickly up or down and disappear	Khacari
Creature	Low	Butterfly				Khacari
Creature	Low	Cat			Ambient cat creature. Should seek nearby flat surfaces to lie on or wander around	Khacari

Clutter	Medium	Baedoor Tapestries			At least small amount of tapestries for Khacari, if it's decided that its district should have Baedoor-specific clutter - if not, bigger amount but for later release	Khacari / BaeC
Weapon	Low	Handmade Revolver			Can be taken from/shared with IoA or even WoB	Khacari / BaeC
Weapon	Low	Some White Weapons			Knives, handmade swords and all very common stuff that is useful widely and by variety of people - could have Erdic/Bae variants, but also have some common one that is used widely (even outside those two cultures, by bandits and whatnots)	Khacari / BaeC
Cloth	Low	Baedoor Clothes				Khacari / BaeC
